Fourth Quarter 2022 Financial Results

Net Revenues

Total net revenues for the fourth quarter of 2022 decreased by 34.2% to RMB1.01 billion (US\$145.8 million) from RMB1.53 billion for the prior year period. The decrease was primarily attributable to a 56.9% year-over-year decrease in net revenues from Color Cosmetics Brands^[3], partially offset by a 42.4% year-over-year increase in net revenues from Skincare Brands.

Gross Profit and Gross Margin

Gross profit for the fourth quarter of 2022 decreased by 28.0% to RMB714.6 million (US\$103.6 million) from RMB993.0 million for the prior year period. Gross margin for the fourth quarter of 2022 increased to 71.1% from 65.0% for the prior year period. The increase was driven by (i) increasing sales of higher-gross margin products from Skincare Brands, (ii) stricter pricing and discount policies and (iii) cost optimization across all of the Company's brand portfolios.

Operating Expenses

Total operating expenses for the fourth quarter of 2022 decreased by 47.0% to RMB792.9 million (US\$115.0 million) from RMB1.49 billion for the prior year period. - **Fulfillment Expenses.** Fulfillment expenses for the fourth quarter of 2022 were RMB62.5 million (US\$9.1 million), as compared with RMB123.1 million for the prior year period. As a percentage of total net revenues, fulfillment expenses for the fourth quarter of 2022 decreased to 6.2% from 8.1% for the prior year period. The decrease was primarily attributable to a decrease in warehouse and logistics costs due to the outsourcing of most of the Company's warehouse and handling operations.
- **Selling and Marketing Expenses.** Selling and marketing expenses for the fourth quarter of 2022 were RMB535.2 million (US\$77.6 million), as compared with RMB1.08 billion for the prior year period. As a percentage of total net revenues, selling and marketing expenses for the fourth quarter of 2022 decreased to 53.2% from 70.7% for the prior year period. The decrease was primarily attributable to the closure of underperforming offline stores, reduction in marketing event-related expenses and higher efficiency of online marketing activities.
- **General and Administrative Expenses.** General and administrative expenses for the fourth quarter of 2022 were RMB170.0 million (US\$24.6 million), as compared with RMB248.7 million for the prior year period. As a percentage of total net revenues, general and administrative expenses for the fourth quarter of 2022 increased to 16.9% from 16.3% for the prior year period. The increase was primarily attributable to the deleveraging effect of lower total net revenues in the fourth quarter of 2022.
- **Research and Development Expenses.** Research and development expenses for the fourth quarter of 2022 were RMB25.1 million (US\$3.6 million), as compared with RMB43.3 million for the prior year period. Use of Non-GAAP Financial Measures

The Company uses non-GAAP income (loss) from operations, non-GAAP net income (loss), non-GAAP net income (loss) attributable to ordinary shareholders and non-GAAP net income (loss) attributable to ordinary shareholders per diluted ADS, each a non-GAAP financial measure, in reviewing and assessing its operating performance. The presentation of these non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with U.S. GAAP. The Company presents these non-GAAP financial measures because they are used by the management to evaluate operating performance and formulate business plans. Non-GAAP financial measures help identify underlying trends in its business, provide further information about its results of operations, and enhance the overall understanding of its past performance and future prospects. The Company defines non-GAAP income (loss) from operations as income (loss) from operations excluding share-based compensation expenses and amortization of intangible assets resulting from assets and business acquisitions. The Company defines non-GAAP net income (loss) as net income (loss) excluding (i) share-based compensation expenses, (ii) amortization of intangible assets resulting from assets and business acquisitions, (iii) revaluation of investments on the share of equity method investments, and (iv) tax effects on non-GAAP adjustments. Non-GAAP net income (loss) attributable to ordinary shareholders per diluted ADS is computed using non-GAAP net income (loss) attributable to ordinary shareholders divided by weighted average number of diluted ADS outstanding for computing diluted earnings per ADS.

However, the non-GAAP financial measures have limitations as analytical tools as the non-GAAP financial measures are not presented in accordance with U.S. GAAP and may differ from the non-GAAP information used by other companies, including peer companies, and therefore their comparability may be limited. The Company compensates for these limitations by reconciling the non-GAAP financial measures to the nearest U.S. GAAP performance measure, all of which should be considered when evaluating performance. The Company encourages investors and others to review its financial information in its entirety and not rely on a single financial measure. Reconciliations of Yatsen's non-GAAP financial measure to the most comparable U.S. GAAP measure are included at the end of this press release.
